UNIVERSITY OF TETOVA

Rector's address

Dear high school graduates, Respected friends of the University of Tetova ...

In December last year, our University celebrated its 27th anniversary. Through the past two decades, due to the dedication and professional work of the teaching staff as well as the remarkable engagement of our valued students, University of Tetova has grown into an competitive institution with great educational credibility. With thirteen faculties and 64 study programs, the University has become a strong symbol of an academic preparation for upcoming generations and is serving as reference university in the region and beyond.

Therefore, we can easily admit that the University of Tetova has successfully met the standards and fulfilled the mission that was appointed since the first day of its existence. We are delighted to see every day as it grows and look alike as all other prestigious European universities.

Currently, the University of Tetova, as an institution of higher education and research awards academic degrees in various academic disciplines in all three cycles of study: undergraduate, master's and doctoral studies.

We, as university leaders, continually are interested in improving the overall environment by enhancing

the quality of academic services, improving the teaching and research level, and direct and fruitful communication with students and teachers' staff. As a result of this engagement, we have succeeded in meeting our objectives and goals for bringing new students closer, i.e. increasing the number of those enrolling in the study programs we offer in all faculties.

We are interested to support our students by cutting off the tuition fees if needed, always giving priority to excellent students, to whom we grant scholarships each academic year.

Since its foundation, for all the steps made and for all the developments that have taken place, national community has been university's best ally. We try to cultivate a very healthy relationship with all our stakeholders with whom we have a multidimensional collaboration.

Aside the collaboration within Albanian community and the agreements we have with public and private universities in the Republic of Albania and the Republic of Kosovo, our focus has been also in strengthening the collaboration with worldwide prestigious universities, with whom we have signed memorandums of collaboration for activities related to the educational and research process.

University of Tetova, nowadays represents a suitable choice for all who are interested to have strong

careers in the future and equal opportunities with all students in the world. We guarantee quality and programs acceptable according to the standards required by the European Credit Transfer System and the global labor market.

Our University is now strides toward the third decade, with the determination, vision and spirit of the revivalists, education pioneers and enlighteners of our nation.

Therefore, for all of you who will enroll in one of our faculties and study programs offered by our University, we pledge to work with dedication to prepare you professionally and to make you fit for dignified competition in the local and international labor market.

We are looking forward to welcoming You!

Prof. Dr. Reshat Qahili
Rector of the University of Tetova

Erasmus + is a program for education, training, youth and sport funded by the European Union through the European Commission.

The University of

Tetova has acquired the Charter (license) for Erasmus + in March 2013 and so far has signed student, academic and administrative staff mobility agreements with 78 universities from 13 different European countries..

Benefits from the Erasmus + program:

- A unique study or teaching experience in Europe.
- Close acquaintance with Europe and European higher education.
- Language skills improvement.
- Exchange of knowledge, ideas and contacts.

Student mobility criteria:

- To be student of the second year and above.
- To speak English or the language of host university.
- To submit the application for mobility and documentation within the specified time limit.

Duration of student mobility:

- For studies: 3 - 12 months (1 or 2 semesters).
- For practical work: 2 - 12 months.

Criteria for academic and administrative staff mobility:

- To speak English or the language of host university.
- To submit the application for mobility and documentation within the specified time limit.

Duration of the academic and administrative staff mobility:

- For teaching: 2-5 days (8 lecture hours).
- For training: 2-5 days.

"If in the future you'd like to recall beautiful things from the time you were a student, the best experience you can give yourself is participating in Erasmus + for a study program."

"Studying and living abroad is a great leap forward. Getting out of the comfort zone is not always easy, but it contributes to enhancing your personal and professional capabilities. The hardest part is making the decision, but we can guarantee you that you won't be disappointed."

"I would appeal to all students to not miss such an opportunity because it is a life changing experience"

"I honestly think it is a wonderful experience that one must live, as words aren't enough to describe it! I personally feel very privileged and lucky for the decision I made, although it hasn't been something I planned beforehand. Nonetheless, since the first day it turned out that it was the best decision I've made and entered the Erasmus family."
